Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Theobald Dengler on 22 October 2004.

2. The application has been amended as follows:

In the Claims:

The following changes have been made to overcome 35 USC § 112 issues:

In line 1 of claim 8, immediately after "device" insert --is provided--.

Rejoinder

3. Claim 1 is generic to some of the species and allowable. Accordingly, claims 3-10,12,19, and 22 are no longer withdrawn from consideration since all of the claims depend from or otherwise include each of the limitations of an allowed generic claim as required by 37 CFR 1.141. Therefore, claims 3-10,12,19, and 22 have been acted upon and rejoined with claims 1,2,11,13-18,20,21,23, and 24.
4. In view of the above, applicant(s) are advised that if any claims(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections of the claims of the instant application. Once a restriction requirement
